WASHINGTON C. H., OHIO, TUESDAY, MARCH 5, 1918

Ten Cents a Week

AMERICANS REPULSE SECOND GERMAN ATTACK

Germans Find More Than Their Match in Another Futile Attack in Force on American Front East of St. Mihiel, During the Night.

AMERICAN PATROL BRINGS BACK A NUMBER OF TEUTONIC PRISONERS

Japanese Intervention in Siberia is Now Agreed Upon by United States—German Advance Into Russia Continues Regardless of Treaty.

(By Associated Press Dispatch)

Once more the American troops, holding the sector east of St. Mihiel in French Lorraine have proved themselves more than a match for the Germans.

Another of the sudden strokes the Germans on this front have been launching recently upon the American positions was driven in last night, apparently with considerable force, as the attack was one to warrant notice in today's French official statement. It was met firmly by the Americans as was last week's German thrust in the same region, and the enemy was driven back.

Besides repulsing this attack the Americans on the Lorraine front were active in patrol work in which they took a number of Germans.

The London Evening News today says the question of Japanese intervention in Siberia has been settled and all of the allies, as well as the United States have agreed to immediate action to safeguard the interests of the Powers.

Regardless of this London report Senator Lewis of Illinois, Democratic whip, announced in the Senate today that no agreement or understanding between the United States and Japan has been reached on the subject.

The Germans apparently have not ceased their advance into Russia regardless of the peace agreement. Word from Petrograd says that Narva, 100 miles southwest of Petrograd, has been captured by the Germans, and that the enemy is reported to be continuing his march onto Petrograd.

U. S. AGREES TO JAP INTERVENTION

WASHINGTON, March 5.—(Associated Press Dispatch)—The United States now is in agreement with Japan, Great Britain and the other co-belligerents on the action in Siberia, but the details remain to be worked out. This became known today as the cabinet met with President Wilson to discuss the subject.

WARSHIPS OF BRAZIL WILL JOIN ALLIES

Sir Eric Geddes Makes Announcement Today in Which He Also Speaks of Slow Progress of Ship Construction.

(Associated Press Cable)
London, March 5.—"Our allies are making every effort to increase their production of ships," Sir Eric Geddes, First Lord of the Admiralty said today.

"But despite glowing reports in the American press and great as the efforts of that country doubtless is, there is no doubt a considerable time must elapse before the desired output is obtained."

Sir Eric, whose address was delivered in the House of Commons, said the naval forces of the allies in the European waters would be augmented shortly by a force of Brazilian warships.

MEDALS FOR THE SAMMIES

(Associated Press Cable)
With the American Army in France, March 4.—The first Americans to win the new American medals for bravery in action probably will be men who participated in Friday's successful

fight with the Germans in the Toul sector.

Among them undoubtedly will be some of the men who were decorated yesterday by the French Premier.

The fighting records of the various soldiers are being compiled and on these records recommendations will be made by generals commanding the divisions.

WILL TAKE OVER DOCKS

(By Associated Press Dispatch)
Washington, March 5.—President Wilson intends to take over the Hamburg-American and North German Lloyd Steamship Co.'s wharfs and docks at Hoboken, N. J. He arranged today with Senator Morgan for an amendment to the urgent deficiency appropriations bill giving him such authority.

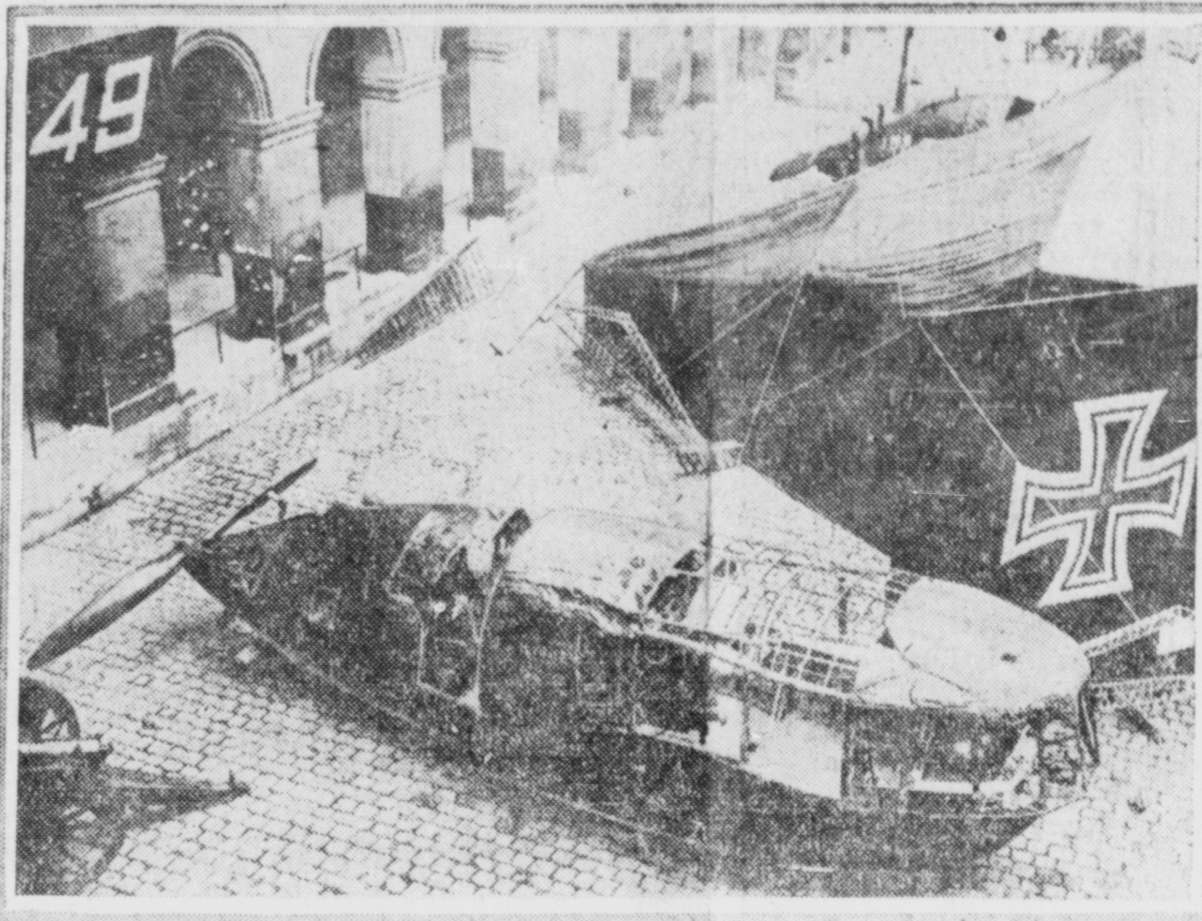

IDLE LANDS LABOR SHORT

(By Associated Press Dispatch)
Washington, March 5.—Idle farm land and labor scarcity were given as the causes for a shortage of crops by G. F. Warren, professor of farm management at Cornell University, today in testifying at the Senate agricultural commission hearing on the food situation.

BAR PEACE DEBATE

(By Associated Press Dispatch)
Los Angeles, Cal., March 5.—Debate on the topic of peace were barred from the high and elementary schools by the board of education last night.

"BABY KILLER" STRAFED IN AIR DUEL OVER PARIS

CAPTURED ZEPPELIN IN PARIS

Photo by INTL.

Much interest was aroused in Paris by an exhibition of parts of the monster German craft known as Zeppelin No. 1449. This was the first of the great airships brought down intact. It has been placed on view in the courtyard of the Invalides, Paris. The monster gas bag serves as a tent under which are spread the various parts that might be injured by rain. The photograph shows one of the monster cabins and part of the exhibition tent with its Imperial cross.

USES MOUTH GETS LIMIT OF THIRTY YEARS

Unpatriotic Utterance Is Offense Which Lands This Man in Prison for 30 Years—Lesson to Others.

(By Associated Press Dispatch)
Ayer, Mass., March 5.—Wm. Nimke, of Torrington, Conn., a sergeant in Company F, 301st Engineers, at Camp Devens, was given a 30-year sentence today for unpatriotic utterances. He was tried by a general court martial February 5th.

Nimke was taken to Ft. Jay, N. Y., immediately to begin his sentence. He was tried on three counts; on the following two of which he was found guilty.

"If I am put in charge of a party on the other side I will surrender to the Germans, no matter what their strength may be."

On another occasion he said: "I will fight for the United States so long as I am kept on this side of the Atlantic, but if I am sent to the other side I will act independently."

SAMMIE HAS RIGHT SPIRIT

(By Associated Press Dispatch)
Washington, March 5.—"Don't take good space up with sweets that should be used for needed ammunition. Candy and cakes taste fine, but they won't do much good when the Hun starts his offensive, so don't do anything to hinder the United States."

That is the spirit of the American soldier in France as expressed by a North Carolina trooper to his mother. Postmaster General Burleson, to whom the mother wrote quoting her son's letter said such a sentiment expressed the American spirit that would win the war.

ALIEN SOLDIERS WILL NOT BE SENT TO FRANCE

(By Associated Press Dispatch)
Washington, March 5.—Officers and men in the army who are of enemy nationality, but of whose loyalty there is no question, will not be permitted to serve on the battlefield but will be detailed to insular posts when their regiments go to France.

The war department has adopted as a policy of treating the men to duty in insular possessions releasing men who can be sent to France.

WILSON AGAIN BREAKS RULE

(By Associated Press Dispatch)
Washington, March 5.—All official Washington was talking today about a little speech President Wilson made last night from the theater. It was the first time within memory of anyone here that a president had done such a thing.

With a large audience the president had enjoyed a play depicting the conversion of a disloyal German-American into a loyal citizen.

WOMEN VOTE IN NEW YORK

(By Associated Press Dispatch)
New York, March 5.—Seemingly cognizant of the fact that their votes might not only decide the fortunes of candidates but the political complexion of Congress as well, women of four New York congressional districts for the first time in the state's history participated today in the election of successors to four representatives who have resigned their seats.

Data indicates the women are polling a proportionately heavier vote than the men.

NATIONWIDE PROHIBITION IS DEMANDED

Vital War Measure Because It Saves Food Declares Chairman of Prohibition Forces.

Even Germany Has Abolished Booze Making to Save Grain Says Hinshaw.

(By Associated Press Dispatch)
Chicago, March 5.—A demand for immediate nationwide prohibition as a war measure was voiced by Virgil G. Hinshaw, chairman of the Prohibition National Committee in an address opening the thirteenth national convention of that party in Chicago today.

More than 1,000 delegates from all parts of the country were in attendance.

"If all the prohibition forces will pull together," said Mr. Hinshaw, "we can secure war prohibition within ninety days."

"But it is not the job of the prohibition party to do it alone. We want prohibition for the period of the war and we also want it permanently. Germany has gone so far as to prohibit the use of grain for the manufacture of beer. That is the greatest single attack she could have made against the armies of the allies. Let us make a counter attack by securing war prohibition within 90 days and national constitutional prohibition within a year."

MANY RESCUED FROM FLAMES

Cleveland, O., March 5.—One fireman barely escaped drowning, two policemen were overcome and several persons were rescued in a spectacular manner which today caused \$35,000 in the Hanna Block on Woodland avenue.

NOTHING TOO GOOD FOR U. S. WOUNDED

Chicago, March 5.—(Associated Press Dispatch)—Nothing is too good for United States soldiers sent to army hospitals for treatment, according to Major W. A. Shields, in charge of the Army's Central Department medical supply depot here, who has just given to The Associated Press a detailed account of the methods employed in safeguarding the health of the men in khaki.

Major Shields said that medical officers at the various army hospitals have only to ask for what they want for the treatment of the men and it goes to them.

Carrying out the departmental policy of thoroughness in the treatment of the men, only the most sanitary, most modern and most efficient equipment is sent out. This rule applies to everything, from the furniture used in the institutions to the dishes from which the patients eat. Major Shields said that all hospitals are supplied with high grade silver-plated knives, forks and spoons, fine quality linens, the best food, sleeping quarters as pleasant and convenient as money can provide, and that everything else is on the same high plane.

Although the depot has had to furnish no supplies for wounded men as yet, the hospitals of the Central Department have received more than 9,000,000 feet of cloth bandages—enough to extend from New York to the Texas coast. When the American forces are actually engaged in trench warfare in any considerable numbers, and wounded men begin to pour into American hospitals, Major Shields said, it is probable that the medical supply depot will be overtaxed to supply needed bandages. Because of this fact officials are investigating paper bandages which are said to be equally as serviceable as the kind now in general use. Paper bandages have been in use in Germany for some time almost exclusively, owing to the inability of that country to get material for cloth bandages.

CONVICTED MAN NABBED IN COLUMBUS

Archie Jenkins Returned to the Guard House at Camp Sherman.

Sentries Will Be Ready to Shoot to Kill After This Says Order.

(By Associated Press Dispatch)
Columbus, O., March 5.—Archie Jenkins, Springfield draft soldier who escaped from the guard house at Camp Sherman after being sentenced for robbing the camp mail, has been arrested by the Columbus police and returned to Chillicothe authorities.

Jenkins' escape resulted in an order yesterday that sentries at Camp Sherman hereafter shall carry ball cartridges and shoot to kill if necessary.

Jenkins was found in front of police headquarters under the influence of liquor.

TRENCH FEVER INVESTIGATED BY AMERICANS

Sixty Men of Sanitary Corps Submit to Experiments to Aid in Eliminating Trench Fever From Allied Armies.

(Associated Press Cable)

Paris, March 5.—Sixty enlisted men of the United States Sanitary Corps now are serving as hosts to normal or infected life or have received injections of blood from soldiers known to have been suffering from trench fever. They are quartered in a British base hospital where the American Red Cross is using them for an investigation of trench fever.

The organism producing the fever has not been discovered, although it heads the fever among the British troops at the front. It is not fatal.

Scarcity of physicians in the British army has prevented a study of the cause of the disease.

OHIO SELECTS GO TO CAMP

(By Associated Press Dispatch)
Columbus, O., March 5.—The first movement of consequence of men selected under the new classification was started in Ohio today when 505 Class One men left for Camp Greenleaf, Ft. Oglethorpe, Ga. Tomorrow 679 more will go and on the following day 218.

Those entering service today entrained from the following points:

Bowling Green, 10; Cincinnati, 95; Cleveland, 99; Dayton, 28; Springfield, 30; Toledo, 21; Tiffin, 20; Ash-tabula, 9; Jefferson, 3; Urbana, 2; Wilmington, 4; Greenville, 6; Sandusky, 8; Wauseon, 7; Chardon, 3; Xenia, 5; Cambridge, 12; Findlay, 2; Norwalk, 6; Newark, 4; Bellefontaine, 4; Elyria, 15; Zanesville, 7.

TO ANNOUNCE NEXT DRAFT

Washington, March 5.—Announcement of the date of the next draft is imminent. The Provost Marshal General's office has prepared "an important announcement which is believed to deal with the time and method of summoning the second levy."

The best opinion is that the first of the men will move to camp in April.

Publication of the announcement is held up for action of Congress on pending amendments on the selective service act.

NEW CHAIRMAN IS APPOINTED

Washington, March 5.—Bernard M. Bruch, of New York, today was appointed chairman of the War Industries Board.

Announcing the appointment of Mr. Bruch to succeed Daniel Willard, president of the B. & O. railroad, who resigned, President Wilson also announced a reorganization of the board into an organ to more thoroughly consolidate the efforts of war industry.

THE DRIVE IS ON IN REAL EARNEST ALL OVER COUNTY

Early Tuesday morning the Fayette County War Work Council in every part of the county, went "over the top" in the sale of War Savings and Thrift Stamps, and the first district reported was the Tamarac School District in Jasper township, the complete report on this district being in the hands of Chairman Daugherty at 9:30 and showing quite a number of investments in the "Baby Bonds."

From virtually every point in the county came reports of the activities of the workers, and the good response to the application for sale of the war stamps.

In two or three instances men assigned to the work have been rather indifferent, and they will be promptly removed and real patriotic and energetic men take their place.

"On the Fayette County War Work Council organization there is no place for the fellows who are indifferent and can't do a little something for their country," declared Chairman Daugherty.

Therefore, if a man is removed and another placed in his position, it is because the man has failed to do his duty at a time when there should be no shrinking, it is pointed out.

The results of the work today will not be definitely known for a day or two, at which time the figures will be announced.

Members of the Fayette War Work Governing committee have been hurrying to and fro during the past few days, preparing the machinery for the drive, and their work has been unselfish, untiring and result-getting generally.

PNEUMONIA PROVES FATAL TO CHILD

The sympathy of Washington friends is deeply aroused by the sad news coming from Dayton of the death of Sherman W. Hughey, the eight months old son of Mr. and Mrs. Brooks Hughey, at 2:30 Tuesday morning.

Monday morning word came to relatives here that the baby was critically ill with pneumonia. Mr. Hughey's mother, Mrs. J. W. Hughey, Mrs. Sherman Murry, Mrs. H. C. Ireland and Mrs. Martin A. Hughey went over for the day, Mrs. J. W. Hughey remaining with the heart-broken parents until the death angel came for the little one.

Tuesday morning Mr. Martin Hugh-

ey, accompanied by Mrs. Murry and Undertaker McCoy went over and brought all that was mortal of the loved child, with the parents and Mr. Hughey's mother. The sad party went at once to the home of Mrs. J. W. Hughey on Sycamore street, where services will be held Wednesday afternoon at two o'clock. Burial will be made in the family lot of the Washington cemetery.

SAYS CORN TESTS BETTER WHEN DRY

After making a number of tests, Harry Heath, residing in Marion township is convinced that there is a great deal of difference in the germinative powers of seed corn if corn is first allowed to become thoroughly dry after being removed from the shock or granary before tests are made.

Mr. Heath tested 204 ears before thoroughly drying the corn. 139 of the ears were found to be all right, while 74 ears were shown to be unfit for seed.

Not satisfied with the first test, which was made by the rag doll method, he planted grains from the 74 ears, placing the grains in moist soil after the ears had become thoroughly dry, and was surprised when nearly every grain sprouted, although previous tests indicated the ears were not good.

He relates his experience in conducting tests for the value it may have to other farmers.

ANOTHER BEAUTIFUL STATUE IN PLACE

The statue "Hebe" is now in the possession of the high school. It was presented by this year's Sophomore class, from the proceeds of the candy sales.

The statue is extremely beautiful and graceful, and is a worthy addition to the already large collection of the high school.

FOOD DISTRIBUTORS TO HOLD MEETING

Wednesday afternoon at two o'clock the food dealers, manufacturers and distributors of the county will meet in session at Memorial Hall, for the purpose of taking up problems of the proper distribution of food under the Federal Food Administration's orders.

C. S. Kelley, of the Federal Food Administration, will be present to address the distributors.

NOTICE.

The auxiliary to the C. W. B. M. will meet at the home of Mrs. H. C. Conwell in Millwood, Wednesday, March 6th at 2:30 p. m. Come.

FIRST OF FOUR MINUTE SPEECHES

The first of the speeches delivered by the "Four Minute Men" in Fayette county was delivered between reels at the Wonderland, Monday night, and made a decidedly favorable impression upon the large audience.

The four-minute speech was delivered by Judge Joseph Hidy on "Danger to Democracy." He said:

"The President has said we are in this war to make the world safe for democracy; does anyone ask how the safety of democracy is involved in the results of this war?"

"For answer, look at this map. That is the map of a New Empire. It is known as Mittle Europa. To make the map look like that has been the dream of Germany for fifty years. The black area is Germany and her vassal allies. The shaded areas are the countries she has overrun since 1914. The whole extends from the North Sea to the Persian Gulf. It has an area of more than 1,300,000 square miles, and a population of 187,000,000 people, and on every square mile of it the Kaiser's will is the law of the land.

"The Kaiser's will! That means the will of the military caste of Germany. The will to conquer the world by force. To that military caste international treaties are mere scraps of paper. It avows the doctrine that might is right.

"It holds that war is the noblest activity of man—a part of the Divinely appointed order.

"It sees no sacrilege when today a German soldier impales a screaming babe upon his bayonet, and tomorrow stands reverently with uncovered head to hear the Kaiser's latest proclamation of the partnership between 'me and Gott!' A caste which in preparation for this war spent fifty years in corrupting the hearts and debasing the ideals of a once noble and humane people, in order that when the hour came they might be more terrible than the Huns of Attilla.

"Do you see no danger to democracy when this corrupted nation shall have consolidated its sway over this vast empire? Mittle Europa is not the limit of German ambition. She has long coveted a foothold on the Western Hemisphere. Do you want her for a neighbor?"

"While we were yet a neutral, the Kaiser said to our Ambassador, 'When this war is over, I will stand no nonsense from the United States!'

"On July 4th, 1776, one of the signers of the Immortal Declaration said to his neighbor, 'Now we must all hang together.' 'True,' said the other, 'for if we don't we shall all hang separately.'

"In the circumstances of this hour all the free nations of the world must FIGHT together, or later they will all be conquered separately.

"Just as this terrible war broke upon a peaceful world, the two great English-speaking nations were preparing to celebrate a century of peace. For a hundred years we and England lived on either side of an imaginary line. That frontier—three thousand miles long—was not protected by a single fortress. No barrier even so strong as a tow-string restrained the will of either citizenship freely to pass and re-pass. A thousand miles of that frontier lies through an inland sea, on neither shore of which is there a fortified port and the waters of which have not in a century been darkened by the shadow of a ship of war. In that century not a loaded cannon has been pointed from either direction toward that line—not a shot has been fired in anger across that boundary.

"Ask yourself the question—How if Germany had been our neighbor?"

COOK COMMUNITY CITIZENS BUSY

Cook, O., March 4, 1918.

Editor The Herald:

Would like to state that members of the Willing Workers of Cook and members of the American Surgical Dressing Committee for the time they have been organized have accomplished great things. They have had two meetings at country homes and attendance was small not to exceed fifteen, but they have made and shipped twenty-six hundred dressings that have been approved by the National Committee.

They will meet early this week as they have several hundred yards of gauze and other material to work up. They expect to hold a Box Social Tuesday night March Fifth, proceeds devoted to the purchase of more supplies.

On March thirtieth at twelve o'clock these same Willing Workers will hold a donation sale on the school grounds. They have already several hundred dollars worth of property, donated consisting of hogs, poultry, grains and feeds, seeds etc. Col. M. W. Eckle will conduct the sale as auctioneer. Everybody come.

I. H.

ASKS \$1,000 FOR ALLEGED DAMAGES

Willard Underwood, in a suit in the common pleas court, asks \$1,000 damages from Howard Beatty for injuries alleged to have been sustained January 4th, 1918, when the defendant is alleged to have attacked the plaintiff and severely beat him.

The plaintiff claims the defendant used some implement in striking him repeated in the face, and that his face was cut, teeth loosened, and he was rendered unconscious, compelled to remain in bed four days and to lose four weeks work. A physician attended him upon two occasions.

Plaintiff is represented by Gregg, Patton & Gregg.

More About Florida

The old yet new state of Florida—that long finger of our country, which points straight out to South America and to that path of big coral fort stones which we have designated as "The Keys," and used as a stepping stone to Cuba—improves on acquaintance. Florida's cities can too be grouped under the smallest numeral save "one"—Jacksonville and Miami if we exclude the capital city, Tallahassee and Tampa on the west coast. The former is important only as the capital and Tampa is just getting a good start as cities go.

There are a number of trading points and railroad division headquarters which may, for the present at least, be dismissed from consideration as important factors as proof of the real substantial and permanent development of the state—commercially and agriculturally. Jacksonville is quite a city and important as the "gateway to Florida." It is the point to which all "feeder" railroads running from the north bring all their thousands of tourists and tons of freight to be turned over to the Flagler system down the east coast. While, in a way it is different yet, in the larger sense, it is not unlike scores of northern railroad centers. To be sure there is quite an effort made to keep the palm trees thrifty looking and the flowers in bloom, the hotels in gala array and the birds singing to give the visitor to Florida his favorable first impression at the threshold of the tropical land—Jacksonville succeeds admirably too. It is a busy prosperous place. The railroad and river traffic is tremendous. Jacksonville can scarcely keep pace with the business which pours in and out of Florida, the great bulk of which is furnished by the tourists.

Miami is the typical city of Florida. It has grown by leaps and bounds and is still growing. With a population now estimated at well toward half a hundred thousand, it is reaching out, in all directions, for building space even building land out into the ocean. Miami is easily, now, the most important and most beautiful, most prosperous and most promising city of Florida.

Those who have made fabulous fortunes in Miami real estate, until with in a year ago, did so because they picked a long shot as they say on the race tracks. There is no particular reason why Miami should have been built where it is. It might have been north fifty or a hundred miles or south a score or more of miles but Miami was started, on its present site, not more than a score of years ago and Miami began to grow and it has been growing ever since—faster, apparently, each year. Why? Just because it did—that seems to be the only reason.

Miami will continue to grow but there is a reason for that assertion. It is already a big city and, as Florida should have a big city down on the peninsula proper, that city will, in all probability, be Miami, because it is off in the race for prestige with a big lead. Miami is here now and any rival would be compelled to start from nothing. While property valuations, now fabulous in Miami, may experience some shrinkage and while some speculators who can't hold on until the tide turns may be bankrupted, Miami seems destined to be the Los Angeles of Florida. To gamble with Miami real estate, now that the stakes are so high, requires capital, judgment and nerve. The day for "guessing" and playing long shots has passed away.

As a seaport city the future of Miami does not seem as promising as many of its most enthusiastic boomers picture it. There seems now no reason why Miami should ever be anything more than the seaport for Florida trade which will never make it a great seaport although it may add materially to its commercial importance as the metropolis of the state. Miami, so far as the older business sections are concerned, is not laid out properly—the streets and sidewalks are exceedingly narrow and traffic is limited and hampered. The buildings in the business sections are, with a few exceptions, of flimsy construction cheap looking and unsubstantial. At the core the city seems to bear indisputable evidence of having been launched upon its career by men who were limited in means and none too certain of the city's future.

But the hotels, the parks and the newer sections, out through Deering estates to and including Coconut Grove carry, in the beauty and scope of the street designs and the prodigal expenditure of money, the evidence that substantial men of wealth and confidence have made Miami their home and their business habitation.

Fort Pierce will grow into a prosperous good sized city with in the next score of years. West Palm Beach will be a good town, but Miami will be the big city of Florida. That seems from every indication to be the decree of fate and fortune.

The climate is dependably warm—too warm really after January for comfort. The cheap and shoddy hotels boarding houses, rooming houses, restaurants and business blocks are beginning to surrender to the more substantial and to fade away with other evidences of the boom town and the experiment station before the real city now rapidly in the process of making.

At present Miami is not a pleasant place for the tourist. It offers very few comforts indeed, to the folks of moderate means. Prices for inferior entertainment are outrageously high. The few desirable hotels place a valuation on their "rooms and eats" which make the man of average pocket

book limit his stay. Those who can afford the best in Miami come in such numbers that, to secure accommodations, reservations must be made in advance.

Rural Florida has been much misrepresented, misunderstood and abused. There are possibilities for rural Florida, now that people are beginning to understand, and rural Florida dealt with intelligently will respond handsomely to the demands of men.

There are thousands of acres in Florida which are paying enormous returns on the investments of the men who acted with intelligence. There are hundreds of thousands of acres yet waiting the efforts of men. Florida is a big state—one of the largest east of the big river—and its surface has only been scratched. It has only been surveyed and exploited by the promoters. Now people are getting down to "brass tacks" and Florida is going to do better from this time on by the people because the people are going to do better by Florida. Really a great big basin, the state is, with a sandy ridge running all around the long coast line. The great low places inside that rim are being drained. It's a big job, but man is equal to the task and the stake is a big one—well worth while.

Another time something about what the men who make Florida soil pay big dividends—frequently more than a thousand dollars a year profit on the acre—are doing, will be of interest. It's not difficult to do well in Florida if one knows how and where and has the intelligence and the determination to work.
J. H. H.

Poetry For Today

AVERAGES.
Cheer up, chillun, though the weather's mighty raw,
Every time der comes a freeze dar's gotter come a thaw.
It takes a little patience till de freeze in' time is done,
An' if you lost yoh temper, why it doesn't help you none.

Cheer up, chillun, 'cause de weather's on the move,
When de luck appears de hardest, it is certain to improve.
Cold wave an' warm wave, dey gotter mind de law—
Every time you gits a freeze, you gotter to have a thaw.

Cheer up, chillun, an' prepare to say "Hurrah!"
De chilliest proposition by an' by is bound to thaw,
You hopes dey keep a droppin'—don't you let it make you frown.
Thermometers was built for movin' up, the same as down.

So, cheer up, chillun, 'cause you sho'ly might as well;
We all has our troubles, an' dar's nothin' new to tell.
Each botheration seems about de worst you ever saw,
But every time you gets a freeze, you's gotter have a thaw.

—Washington Star.

The ELGIN

CHIEF OF TRACTORS

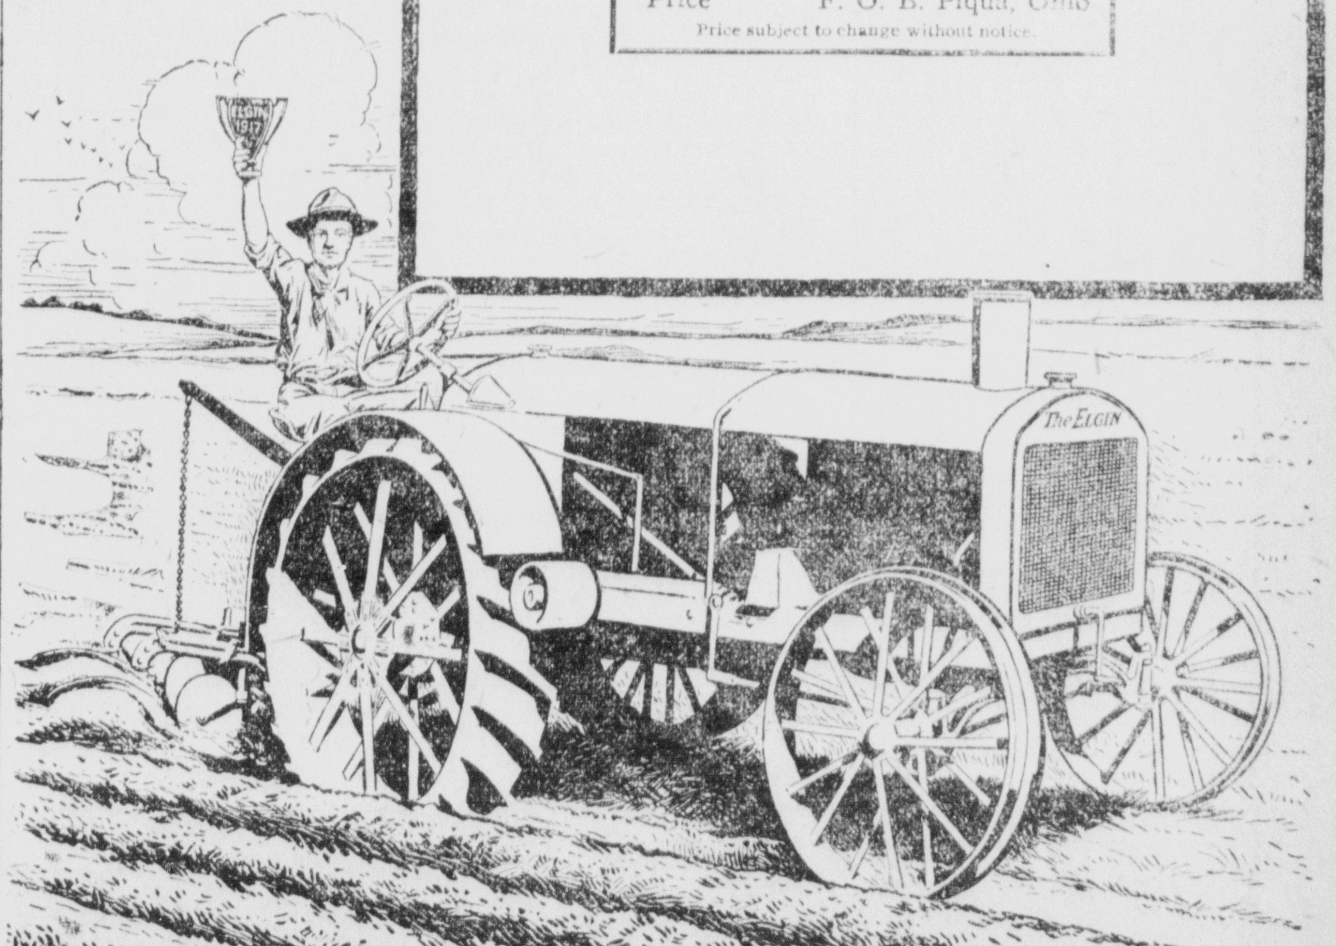

WE are pleased to announce that we are now the exclusive agents in this territory for the ELGIN Tractor, manufactured at Piqua, Ohio.

After investigating the entire tractor field we found that there could be but one decision regarding the best tractor for all-around practical needs—the ELGIN.

We found that the ELGIN is being built of such recognized high-grade materials, and on such correct engineering design, that even when driven beyond its rated power that the owner need never have the worry of something going mechanically amiss. The efficient ELGIN is supreme for all field, belt and road work. It has been properly termed the "All-Purpose" Tractor.

We shall be pleased to send you details regarding the ELGIN, or to demonstrate the machine at your convenience.

Price F. O. B. Piqua, Ohio
Price subject to change without notice.

Price Exceptionally Interesting

We will give a demonstration of this Tractor on the Howatt farm on Leesburg Ave. Thursday afternoon, March 7th. Your presence is earnestly solicited. It will pay you

COUNCIL TAKES STEPS FOR CLEANING CITY'S STREETS

Mayor and Council Speedily Reach Agreement on Manner of Keeping Streets in Presentable Condition.

Patrol Wagon Ordered Sold as Expensive Luxury After Nearly \$300 Expense.

B. & O. Stock Yards and Other Matters Receive Attention at Regular Session of City Dads.

In addition to deciding that the streets of the city must be cleaned by flushing, and taking preliminary steps to bring this about, the city council Monday night disposed of several matters of business, including the granting of permission to Safety Director Passmore to dispose of the police patrol auto, which has never been paid for, and which has, in its brief "efficiency" work incurred bills to the extent of some \$275 and brought in receipts of \$23.

The question of cleaning the streets was brought up by Councilman Bloomer, who stated that the time was at hand when some definite action should be taken toward cleaning the paved streets of the city.

Mayor Dahl, in a brief speech to the council, declared that the matter could not be taken up too soon. He cited Chillicothe where a horse power flusher is used and has given splendid satisfaction. He recommended that the city own a flusher and contract with a man for the use of a team and for operating the flusher. He said a horse power or horse drawn flusher would cost about \$1400 while a motor driven flusher would cost \$6,000. He ridiculed the idea of stopping up the sewers, stating that the

great amount of refuse which had been washed into the sewers recently indicated that the sewers would carry what little refuse was washed into them by a flusher.

Each councilman in turn then expressed himself as favorable to the proposal, and favored immediate action so the work could be taken up without delay. President Melvin declared all streets should be cleaned by assessment against the abutting property.

Upon motion by Rowe a committee consisting of Hicks, Rowe and Phillips was named to work in conjunction with the president of council, service director and solicitor, to investigate the matter and report without delay, so that definite action could be taken.

Want Alleys Cleared.

Upon motion by Phillips the matter of seeing that certain up-town alleys are cleared of accumulated refuse and made passable, was placed in the hands of the Service Director.

Mayers Report.

Mayor Dahl's report for January and February showed a total of \$112.50 in fines and costs collected for the two months.

"We still have some fines and costs unpaid, but you can bet they are going to be paid," announced Mayor Dahl, referring to those who had not yet paid their fines and costs.

That Police Patrol.

Mayor Dahl then stated that the city had a very expensive luxury in the shape of an unnecessary police patrol auto. He said that he had been dumfounded to find that the auto had incurred an expense of some \$250 to \$300 and had returned only \$23 in revenue, and that he believed that the best thing to do with the machine was to authorize the Safety Director to sell it as speedily as possible. The large amount of expense was due to repairs and gasoline, no part of which had been paid for, and the auto itself had not been paid for, it was announced.

"When an auto is necessary to haul a man to prison, we can hire a machine and the expense for same will go into the costs and come back into the city treasury," announced Mayor Dahl.

One Patrol For Sale.

Upon motion by Rowe, Safety Director Passmore was authorized to sell the car, every member of council voting for the measure.

New Building Nearly Ready.

Service Director Tracey announced that within the next week or ten days the new quarters for the Mayor, council and other officers, would be ready for occupancy. The sum of \$300 was transferred from the general fund to the service fund for the work on the building.

Dog Ordinance Repealed.

A resolution repealing the ordinance requiring the licensing of dogs in the city, in addition to the county license, was passed.

Auditor's Report.

City Auditor Geo. Hitchcock submitted his report for the month of February, showing the following balances on March 1st:

General Fund, \$1984.61; Safety, \$3,027.41; Health, \$517.53; Service, \$7,967.79; Library, \$864.32; City Portion,

\$3,857.86; Special Assessment, \$4,106.60; Special Sinking, \$13,229.82; General Sinking, \$6,742.28.

Decline Lease Offer.

By unanimous vote council declined the offer of the Larrimer Laundry Co. to lease the back portion of the Engine House. The committee will give further consideration, however, to the offer to lease a strip of ground back of the engine house.

The Rate Increase.

It was reported that everything was being done that could be on the matter of fighting the proposed rate increase of The Washington Gas and Electric Company, on electricity.

B. & O. Stock Yards.

Bloomer called attention to the presence of a number of persons residing near the B. & O. stock yards, who wished to know why definite action had not been taken in bringing suit against the B. & O. to compel removal of the pens, or adequate relief from the unsanitary condition of the pens.

Solicitor Junk did not know that such action had been authorized, and council, by unanimous vote, reaffirmed the action of the previous council in ordering suit filed against the B. & O.

To Open Sewer.

Bloomer also called attention of the complaints of water standing on the streets on Sycamore and Church streets, and Sycamore and Elm streets. The Service Director was authorized to furnish relief.

To Reinstate Tanks.

Upon motion by Veal the Service Director was instructed to co-operate with the Service Committee in installing two watering tanks which had never been replaced when the streets were repaired, one of the tanks being at the corner of Paint and North streets and the other on South Fayette at the Sunnyside school house. The one on South Fayette will probably be moved to a point near Wesley Chapel. The one on Paint and North will probably be placed somewhere near its former location because of the heavy traffic coming in to the city at that point.

LOCAL GIRL WINS IN SPEED CONTEST

Miss Gertrude Miller, formerly a student in the local high school, now employed as a stenographer in the War Department at Washington, D. C., was pronounced the fastest stenographer in her department in a contest held there recently. Two hundred stenographers were entered in the contest.

The result speaks well for Miss Miller's ability and the training she received while a student in the high school.

BANQUET EXPENSES SURPASS RECEIPTS

The Y. M. C. A. did not make money from the Fathers' and Sons' banquet as generally supposed. A total of \$211 was taken in and the expenditures were \$237.04, which resulted in a loss of \$26.04.

Four hundred and thirty-two persons were served at the big event, and although the banquet was not a success financially, it was a huge success in all other respects.

THREATENS TO QUIT

BILLY KOPF

Billy Kopf, star shortstop of the Cincinnati club of the National League, has announced his retirement from the game, if the Reds management does not send him a new contract. Kopf received a contract calling for less salary than paid him last season, but returned it unsigned.

CALL ASSEMBLY OR VIOLATE LAW

(By American Press)

Columbus, March 5.—It may become known Thursday whether there will be a special session of the general assembly. The board of control, which has charge of the transfer of funds within state departments, had a number of requests for transfers from personal service to maintenance, from improvements to maintenance, etc., which are said to be unlawful. "It has come to the point where we have to decide whether we want to violate the law or force a special session of the legislature," the members said.

By making unlawful transfers they can avoid calling a special session for financial reasons, they believe. If they want to stick to the law there will have to be legislative appropriations. The board deferred action on such requests until Thursday, to give the governor opportunity to express himself.

The state board of administration asked for a transfer of \$240,000 from improvements to maintenance. This sum is needed for food, fuel, laundry supplies, wearing apparel, medical supplies and the like, in addition to the \$175,000 still in a special emergency fund for fuel and food.

COMPULSORY

(By American Press)

Washington, March 5.—The licensing of all aeromants was made compulsory in a presidential proclamation for the protection of the military and naval forces and properties of the country. President Wilson said that the army and navy are "endangered in their operations by aircraft." The proclamation is effective 29 days hence.

The war department asked congress for \$450,000,000 additional for aircraft. Of this sum \$250,000,000 is to extend the aircraft program and \$200,000,000 to pay deficiencies created by purchase of aircraft for which the money had not been appropriated.

Leave Trail of Fright.

Cleveland, March 5.—Police in four cities have been asked to apprehend two Cleveland boys, who, in a stolen high-powered automobile, have left a trail of fright along their route. Cleveland, Barberton, Canton and Massillon police are in close pursuit. Patrolman Wernitz was run over and dangerously injured.

WASHINGTON C. H. INSURANCE MAN TELLS OF FRIEND'S RECOVERY

"He suffered considerably from gas in stomach and colic attacks, and at times was very yellow. His doctors diagnosed his ailment as gall bladder trouble and that an operation was necessary. Some one persuaded him to try Mayr's Wonderful Remedy. Since taking it one year ago he tells me he has been able to eat anything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Blackmer & Tanquary or Frank Christopher. Advt.

JAPS MAY LAND ARMY

Washington, March 5.—Military action by Japan in eastern Siberia to check German influence and protect war stores at Vladivostok is believed to be imminent.

The United States has not yet expressed its views on the proposed step, but it was said in diplomatic quarters that the Japanese would move quickly to meet emergency conditions, leaving to the pending diplomatic exchanges developments of an understanding with America and all the allies upon the scope and purposes of the enterprise.

While it has no direct bearing upon the situation in Asiatic Russia, the news which came to the Swedish legation that Germany has given notice of her intention to occupy the whole of Finland will tend to hasten an agreement upon Japan's plans. The German explanation to the Swedish foreign office, which has protested against the proceeding, that the occupation is to restore order and without intent to take permanent possession, is regarded as a very clear indication of what the Teutons may undertake in any part of Russia now that the Bolsheviks have been forced to accept their hard peace demands.

In seeking an understanding as to scope before going on record as supporting the Japanese action, the American government is understood to hold that while it has every confidence in the proper intentions of Japan, it would be easier to convince neutral nations and moreover would enable America and the allies to defeat any German design to organize the discordant elements in Russia on the German side, were there some formal assurance that Russian integrity was not to suffer. A high official expressed the opinion that for this reason the situation was very delicate and required very careful treatment at the hands of the press to avoid embarrassing misunderstandings.

In eastern Siberia the Bolshevik elements evidently are placing obstacles in the way of a possible Japanese invasion of that territory. Already they have destroyed bridges along the Transiberian railway between Lake Balkal and the Chinese frontier, in addition to having mined, for eventual destruction, if necessary, other portions of the railway line.

FOUR TO ELECT

(By American Press)

New York, March 5.—Women in four New York congressional districts all within this city, for the first time exercised their newly granted right of franchise today by participating in the election of successors to four Democratic congressmen who have resigned. A victory for either the Democrats or Republicans, party leaders say, might affect the balance of power in congress. Republican and Democratic leaders have waged a vigorous campaign to insure the election of their candidates.

Women watchers are on duty in each of the 410 polling places in the four districts—the Seventh, Eighth, Twenty-first and Twenty-second. The congressmen who resigned are: John J. Fitzgerald, Daniel J. Griffin, Murray Hulbert and Henry Bruckner.

RULED OUT

(By American Press)

Cleveland, March 5.—The defense in the murder trial of Elmer Hupp, oil operator, lost a point in their line of defense when Judge Kennedy ruled incompetent all testimony concerning the relations of Charles Joyce, the man whom Hupp killed, with Mrs. Hupp. This barred the testimony of eight witnesses gathered by the defense to testify regarding alleged happenings at the meeting of Mrs. Hupp and Joyce.

Whether the testimony of Consuela Hupp, 14-year-old daughter of Hupp, would be permitted, was not indicated.

TESTED RECIPES FOR WAR TIMES

(More recipes are wanted from the women of Washington and Fayette county. Bring or mail recipes to The Herald. Recipes may be either original or otherwise and should include some feature of saving for war-time. No names published with recipes.—Editor.)

Corn Meal Pone.

1 quart corn meal; 1 cup flour; 1 cup sugar; 1 tablespoon salt; 1 cake yeast; 1 tablespoon lard.

Scald corn meal, flour and salt, let cool and then add sugar and yeast. Let rise and bake.

Corn Flour Griddle Cakes.

1 1-2 cups corn flour; 1-2 teaspoon soda; 1-2 teaspoon salt; 1 cup sour milk; 1 egg.

Sift the dry ingredients together, add the milk and the beaten egg. Mix well and cook on a hot griddle. The batter must be very thin.

Barley Muffins.

1 cup whole wheat flour; 1 cup barley meal; 1 1-2 teaspoon salt; 2 teaspoons baking powder; 1-2 teaspoon soda; 1 1-4 cups sour milk; 1 egg; 2 tablespoons fat.

Sift flour, barley meal, salt and baking powder. Dissolve soda in a little cold water and add to sour milk. Combine flour mixture and sour milk. Add beaten egg and melted fat. Bake in muffin pans in a moderate oven.

BROWNING CLUB

Regular meeting of Browning Club Tuesday evening at 7:30 at Federated Club Rooms. Secy.

FARM NOTES

Youngsters' Pig Raising.

The cost of producing 456 pigs raised by boys in the pig clubs of the Ohio State University last season varied from 6 1-2 to more than 29 cents a pound. The rate of gain varied from 1.3 pound a day to 2 1-4 pounds. The average daily gain was 1.47 pounds and the average cost per pound of gain was 11.4 cents.

A careful study of the results in view of the varied conditions under which the pigs were raised has led the summarizers of the records to conclude:

1. The use of some feed high in protein, as a supplement for corn as the basis for the ration, is essential to economical gains.

2. Pigs of good quality and breeding generally made cheaper gains and made a better finished product than inferior pigs.

3. Some good pasture, either alfalfa, clover or bluegrass, proved efficient in producing gains.

4. It paid to take extra care of the pigs as regards housing, feeding, and handling.

Why Hatch Chickens Early?

Early hatching means better chicks, better success in rearing, higher prices for surplus cockerets sold as broilers, mature pullets in the fall that will lay more eggs during cold weather, and larger, plumper roasters and capons for the holiday markets. It also means greater use from incubators and brooders and better labor distribution by putting the hatching and care of the small chicks ahead of the rush of spring planting.

Plan to start the incubator as early as March 10 and have the first chicks out by April 1. Those who have practiced early hatching and have good equipment are starting the incubators now to hatch in March. Get started early this year and so produce more, and better birds at more profit.

As Bad As "Made Out."

"Is the seed corn situation really as bad as the papers make out," is a common question asked by visitors at the Ohio State University of late, where hundreds of tests are being made. The invariable answer is "Yes. One of the greatest dangers that we face is that the situation may not be truly realized. Our tests show unmistakably that seed corn is unusually bad, and that every ear should be tested." Up to the present time tests show that five-sixths of the corn tested has germinated less than 50 percent and nearly one-half of it germinated less than 20 percent.

Wanted, Horses and Mules

We are selling horses and mules every day. Not only to the farmers of this section, who want them to work, but to the best buyers in the country. We can pay you more for what you have to sell than anyone, because we have the market. Today we have two exceptionally well mated pairs of geldings—browns and sorrels. Also a real pair of mules, weighing in flesh 2500; six years old and sound. They are true pullers and broke to suit you. They are the kind of mules that you can let anyone have and you will be satisfied with the work that they do. This week we want especially some good farm mares, weighing from 1200 to 1600 lbs., 3 to 7 years old, sound and fat. We want the best. All horses and mules that we sell must be as represented or your money refunded.
